

Northport VA Mobile Unit Request Form

Northport VA Medical Center has established the Mobile Unit Program to provide health education and screenings for Veterans in the community setting. The Mobile Unit Program operates at designated sites and at special community events and should be scheduled 2 to 3 weeks in advance. Confirmation of Northport VAMCs attendance at the event will be given based on our availability. The requesting organization will provide coordination of 6 parking spaces for the mobile unit and electrical support via a 110 volt grounded receptacle. If the event is not held at your location, you will need to ensure the logistical needs are met and communicated back to the East End Health Care Program Coordinator 2 weeks prior to the event.

To request the Northport VAMC Mobile Unit, please complete and email or fax to JoAnne Anderson at 631-754-7933

Organization Contact: _____
